NO COMMISSION CHARGES FOR EXECUTING YOUR BIDS.

Be sure and bid on the right lot as we will not hold ourselves responsible for any errors of this kind.

We have taken great pains in describing each lot accurately; in fact the condition of many coins are favored.

If you are interested in any particular lot and do not know how much to bid, we shall be pleased to advise you in regard to the value of same.

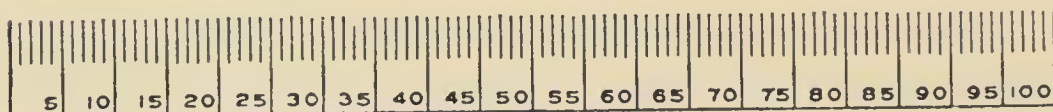

No claims will be allowed unless made promptly and in writing first and no material returned unless it is the fault of the cataloguers.

UNITED STATES LARGE COPPER CENTS

No series of our National Coinage provides such a fascinating interest as does the large copper cents. Not only were these the first coins issued by the mint at Philadelphia, but much of the early history of our country is also linked with the various dates and designs employed in the striking of these interesting coins.

No other series of our coinage provides so many varieties for the enjoyment of the numismatist. Unlike the other denominations which were struck in harder metals, the cents were struck in pure copper and consequently were more easily damaged by circu-

lation. Therefore to find absolutely perfect specimens of the early issues is almost impossible and choice examples are seldom offered.

However, in this offering, we have been most fortunate in securing a collection of rare and desirable cents, many of which are outstanding including 15 different varieties of 1793, 44 varieties of 1794, 31 dated 1798, two of 1799, several of 1801-1802-1803 to 1814 inclusive. The balance of this collection from 1816 to 1857 will be offered in one of our early fall sales.

- 635 1793 Crosby 1A, The chain "Ameri" variety, Desirable specimen, Dark brown and steel color, Evenly struck, Hairlines lightly retouched but only visible under a strong glass, Strictly very fine, First coin struck for general circulation by the mint.
- 636 1793 C.1C, Chain "America" variety, Another rare variety in nice condition, Evenly struck, Chocolate brown color, Reverse slightly mottled, Hair slightly retouched, Strictly V. F.
- 637 1793 C.3C, Chain "America", Evenly struck and medium olive color, Few small indentations on obverse, These are very slight however and do not detract from the beauty of this coin, Medium olive color and one of the finest specimens we have offered in years, Shows only the slightest evidence of circulation, Strictly very fine, difficult to estimate the present market value of this coin, Worth any price it will bring.
- 638 1793 C.4C, The variety with the periods after liberty and date, Shows the obv. die breaks at lower left, Border incomplete, Shows slight wear and microscopic nicks, Olive steel color, Fine. Rare.
- 639 1793 C.6F, Wreath type with the 3 wide leaves above date, Beading incomplete on obv., Slight scratch through back locks of hair, Shows some wear on highest points of hair, Uniform black color, Presentable specimen, Abt. very fine.
- 640 1793 C.7F, Wreath type, with the 3 leaves above date similar to last, but small letters in liberty and small figures in date, Nice evenly struck coin, Slight cut on cheek and two small edge dents otherwise this is an unusually nice specimen, Seldom found so choice, Strictly very fine, Rare and desirable, Worthy of a place in any collection.
- 641 1793 C.8F, Wreath type, This is the excessively rare variety with smaller head and fewer locks of hair, Only 5 or 6 specimens known to exist from this die, This is the original Dr. French specimen, The coin is free from nicks or dents, the obv. appears to have been burnished, the figure 3 in date weak and can be classed about very good while the rev. is strictly fine, Since there are numerous collectors seeking this rarity, we are forced to refuse buy bids on this coin. Let the best man win. Probably the only chance to secure this variety for many years to come, The coin is contained in a box which Mr. T. James Clarke had made for it while in his collection, Gold lined and lettered the box is inscribed from the French Collection, Lot #6, In our opinion this coin will exceed the \$200.00 mark.

- 642 1793 C.9G, Wreath type, Evenly balanced specimen, Slight wear on highest locks of hair, few tiny nicks hardly perceptible without the aid of a powerful glass, Nice uniform medium olive color, This is a very scarce variety to secure in choice condition, Strictly very fine.
- 643 1793 C.9H, Wreath type, Nearly perfectly centered, All of the beading on, Highest locks of hair show slight wear also few tiny nicks and few on rev., But really a nice specimen which shows just a slight evidence of the rev. die cracking through CA to right ribbon of wreath, Strictly very fine.
- 644 1793 C.10-I, Wreath type, Beautiful impression of this die, Shows only slightest evidence of wear on highest points of hair locks, Rev. remarkably bold shows rim die break opposite United. Nicely toned medium olive color, Slightly glossy original surface and one of the finest specimens known to exist, Few specimens excel it, Should bring well into the three figure mark, Extremely fine.
- 645 1793 C.11J, Wreath type, Lettered edge with the two leaves after the word "Dollar," Nicely balanced cent, Shows some wear on highest points of hair locks, Few tiny nicks visible under a strong glass, Nice uniform medium olive color, About very fine.
- 646 1793 C.11J, Wreath type, Lettered edge with only one leaf after the word "Dollar", Nicely balanced cent, Beautiful impressions, Highest point of hair locks show slightest evidence of wear, Beautiful light glossy brown color, Rare and choice indeed, Extremely fine.
- 647 1793 C.12L, Liberty cap type, Obv. shows all of the beading, Bold impression, Few dents around ear which have been burnished down somewhat, Rev. evenly balanced and sharp, Between the words "States Of" there appears to be a plug which has been tooled and is now toned in so that it does not mar the appearance of the coin too much, Still a decent specimen of this popular variety, Fine.
- 648 1793 C.12K, Liberty cap, Evenly struck, Well balanced obverse, slight cut on neck and another on highest hair curl, Some slight edge nicks, The rev. is bold except the words ONE CENT only partly shows, This is generally the case with 12K, Also few edge nicks on rev., Aside from these minor defects this is a strictly fine specimen seldom found better, This is better than the Newcomb specimen, Very few known to exist, Very rare, Seldom offered, Should bring over \$200.00.
- 649 1793 C.13L, Liberty cap, The split die on obv. shows a prominent veritical crack across center of die, Evenly balanced and struck both obv. and rev., Aside from some edge dents this is really an acceptable specimen, Strictly fine, Nice light brown glossy surface.
- 650 1794 Hays 1, Liberty cap, Same type as 1793, Bold impression, Shows slight wear on highest points of hair, Tiny nicks visible under a strong glass, Rev. bold and centered, Shows slight granulations, This is a most unusual specimen of this rare die, Nice dark brown uniform color, Almost equal to the French specimen which was offered at \$125.00. Strictly very fine.

- 651 1794 H.3, Unc. Beautiful sharp bold perfectly centered specimen, both obv. and rev., An outstanding example from this rare die, Nice medium olive color, This gem ranks with the few of the finest specimens known. Exceedingly rare, Superior to the French specimen which was listed as finest known and priced at \$200.00.
- 652 1794 H.4, Bold even impression, Highest points of hair show wear, Slight nick on neck, Rev. shows scratch through ribbon bow but this is a most unusual specimen from this rare die, Seldom found so fine and about equal to the French specimen which was offered at \$100.00, Dark steel brown, Very fine.

- 657 1794 H.10, Nice bold impression, Evenly centered, Only the highest points of hair show slight wear, A few small nicks but still a most desirable item with the pronounced die break across the tip of bust to space between 1 and 7 in date where it joins with a vertical break from the lower border, Rev. bold, Shows only a few tiny nicks, Medium glossy olive color, Rarity 4, Strictly very fine.
- 658 1794 H.11, Beautiful bold even impression with only slight wear on the highest points of hair, Numerous microscopic nicks show under strong glass, Rev. bold with two slight edge bruises, This is an unusual specimen from a scarce die, Rarity 3, Seldom offered as good as this one, Strictly very fine.

- 666 1794 H.19, Bold struck and well centered, Only highest locks of hair show wear, Two light scratches on neck, Rev. shows die cracks, Two short cuts from edge through E in America, Slightly granulated surface of planchet, Obv. about very fine, Rev. fine, Dark steel.
